## **Summery**

I would like to thank the town staff for their continued work on the new fire hall, as you can imagine the department is eager to start operating from the new facility.

We have had 3 new people join the department and have handed out other applications, it is hoped the new facility will help increase recruitment.

The department is hoping that the tender for new truck purchase can soon be issued as we have a complete list of truck specifications and are just waiting on the consultant to be hired. New trucks are currently around 450 days away from delivery after the pre production meeting with a manufacturer and costs are increasing as you can well imagine. I have been contacted by the insurance underwriters looking for an updated list of equipment.

If anyone has any questions at any time please feel free to contact me.
